within European Regions,  
Transnational Higher Education  
and Mobility

**Help us organize the  
4<sup>th</sup> INTERNATIONAL STUDENTS'  
CONFERENCE ICON  
within the FORTHEM Alliance  
2021**

We are an international team of students who are organizing the 4<sup>th</sup> International Students' Conference ICON Mainz, which is scheduled to take place in November 2021. The topic will be "Reaching One Another: Language as Performance and Interface".

## Why you may like to join our team:

- implement your own ideas
- meet new people
- contribute to realizing an international scientific event
- take responsibility within the team
- improve skills in, e.g., intercultural communication, digital tools, social media/PR, academic English, project management
- ECTS credits, ERASMUS or a job-related internship, a qualified certificate are all possible

**In Mainz for only one semester?  
Not studying in Mainz?  
You can participate from any  
university!**

We meet and work online; once in-person meetings are possible again, you can still join in digitally.

**Already a student of JGU?**

You can meet us in person if you are a JGU student – should the current conditions allow.

## Are you interested in traveling to Mainz and participating in the conference in person?

You can apply for the Short-term mobility program this upcoming spring! **Go to: [Collective short-term mobilities \(forthem-alliance.eu\)](https://forthem-alliance.eu)**

You have hardly time besides your studies, no experience with this kind of projects? – Don't worry: We have lots of different tasks that you can complete even with little time on your hands. Plus, you can learn what we do from scratch.

There are many ways you can support the team and participate; we'll find one that fits your availability! No experience required!

**Our work continues until the conference begins in November 2021.**

Still unsure? Feel free to come by one of our meetings and see if it feels right for you. Contact us at [icon@uni-mainz.de](mailto:icon@uni-mainz.de) with any questions.
